

Ethical Wildcrafting

EBOT F210 UK1

1 credit

Course Description

Students will gain the knowledge and skills necessary to make informed and responsible decisions about ethical harvesting of plants in Alaska and beyond. Based on an interdisciplinary approach inclusive of Indigenous Knowledge, students will learn about the cultural and spiritual aspects, and the ecological, economic and legal dimensions of wildcrafting.

Instructor	Lisa Strecker lstrecker@alaska.edu Mailing Address: UAF Kuskokwim Campus, 201 Akiak Dr., Bethel, AK 99559 Phone: 907-543-4551
Office hours	Mondays, 9 – 11 am via Zoom; Please sign up for an appointment slot on your instructor’s google calendar (https://tinyurl.com/yy6be9kj) and join the Zoom meeting https://alaska.zoom.us/j/98144808854?pwd=b1VtMWQ1ajhJbndyTmZJY1hobk9kdz09 Password: EBOT Email for alternative times or modality (e.g. over the phone instead of Zoom).
Location	Distance Delivery Zoom and Canvas. Students taking this class are required to have an email address, basic computer skills, and reliable computer internet access for all class sessions.
Zoom	https://alaska.zoom.us/j/98144808854?pwd=b1VtMWQ1ajhJbndyTmZJY1hobk9kdz09 Password: EBOT
Course dates	Mondays 5:00 PM – 6:30 PM; LATE START: October 2, 2023 – December 4, 2023
Instructional methods	Lecture, student discussion, blogging, student presentations;

Course Goals

Upon successful completion of this course, the student will acquire an understanding of:

- The cultural, spiritual and ethical dimension of respectful and sustainable wildcrafting.
- The ecological basics of sustainably harvesting wild growing plants.
- Cultural, environmental and economic concerns of wild plant foraging, both locally and worldwide
- Alaska-specific regulations regarding commercial and non-commercial collection of plant materials from publicly and privately owned lands
- The possible pollution and health hazards being associated with gathering and using wild plants
- Non-timber forest products in Alaska and other regions as an economic opportunity in rural areas as well as a necessary mechanism to ensure sustainable resource use.

Student Learning Outcomes

Successful students in this course will be able to -

- Apply a structured approach to ethical decision making in ethnobotany-related questions
- Discuss and apply the Code of Ethics of the International Society of Ethnobiology
- Summarize the historical background of ethics in ethnobiology
- Name examples of ethical issues related to ethnobotany of local (state of Alaska) and global importance
- Explain the implications of global developments for local plant harvesting
- Name and summarize international treaties regulating the exchange of genetic information of plants, related traditional ecological knowledge and intellectual property rights
- Name and explain prominent case studies, such as Rights of Mother Earth
- Apply the At-Risk Assessment tool by United Plant Savers
- Identify and apply locally valid guidelines for ethical wildcrafting
- Answer questions about the legal framework of wildcrafting in their area
- Discuss the potential impact of commodification on the sustainable use of wild-growing plants
- Explain health risks related to environmental pollution and consumption of plants harvested from the wild.

Resources & Materials Required Texts

Hardison, Preston and Kelly Bannister. "Ethics in Ethnobiology: History, International Law and Policy, and Contemporary Issues." *Ethnobiology*. John Wiley & Sons, Hoboken New Jersey (2011): 27-49.

All readings mentioned in the syllabus will be posted on Canvas.

Readings from texts are to be read as assigned, and completed by the next class period. If reading material raises questions that you have or introduces material that you are especially interested in, we will discuss your questions or interests in more detail during the scheduled class period. **You must do the readings as they provide background for lectures, and because you will need to use the material when you prepare the discussion posts.** From time to time throughout the semester the instructors may assign additional reading material, with these not necessarily listed in the course outline below.

Course Content See Lecture Outline (below)

Evaluation & Grading

Element	Number	Percent of Grade
Presence, participation		18%
Assignments		20%
Discussion posts	6	42%
Reply to posts	10	
Student presentations		20%
TOTAL		100%

Grading Scale (based upon the percentage of total possible points):

A	A+: 98-100% A: 93-97% A-: 90-92%	"A" (including A+ and A-) indicates a thorough mastery of course content and outstanding performance in completion of course requirements.
B	B+: 87-89% B: 83-86% B-: 80-82%	"B" (including B+ and B-) indicates a high level of acquired knowledge and performance in completion of course requirements.
C	C+: 77-79% C: 73-76%	"C" (including C+ and C-) indicates a satisfactory level of acquired knowledge and performance in completion of course requirements.

	C-: 70-72%	
D	D+: 67-69% D: 63-66% D-: 60-62%	“D” (including D+ and D-) indicates a minimal level of acquired knowledge and minimal performance in completion of course requirements. This grade does not satisfy requirements for courses in the major, minor, core or graduate programs.
F	F: below 60%	“F” indicates failure to meet a minimal level of understanding of course content and/or performance in completion of course requirements. All F grades, including those earned in pass/fail courses, are included in the GPA calculations.
W	Withdrawn — Indicates withdrawal from a course after the first two weeks of a semester.	
I	Incomplete — An incomplete is a temporary grade used to indicate that the student has satisfactorily completed (C (2.0) or better) the majority of work in a course but for personal reasons beyond the student’s control, such as sickness, has not been able to complete the course during the regular semester. Normally, an incomplete is assigned in a case when the student is current in the class until at least the last three weeks of the semester or summer session. Negligence or indifference are not acceptable reasons for an I grade. Instructors include a statement of work required of the student to complete the course at the time the I grade is assigned, and a copy of the notice of the incomplete grade will be sent to the dean of the school or college in which the course is given. An incomplete must be made up within one year or it will automatically be changed to an F grade. One year is the longest amount of time allowable for completion of the I. The I grade is not computed in the student’s GPA until it has been changed to a regular letter grade by the instructor or until one year has elapsed, at which time it will be computed as an F. A senior cannot graduate with an I grade in either a university or major course requirement. To determine a senior’s GPA for honors at graduation, the I grade will be computed as a failing grade.	
NB	No Basis — Instructors may award a No Basis grade if there is insufficient student progress and/or attendance for evaluation to occur. No credit is given, nor is NB calculated in the GPA. This is a permanent grade and may not be used to substitute for the Incomplete. It cannot be removed by later completing outstanding work.	

Policies & Procedures

Time Commitment: College level science courses customarily require at least 2 to 3 hours of time outside of class (for reading, study, and preparation) for each hour spent in class. Students whose schedules cannot accommodate this level of commitment for whatever reason (work, family obligations, etc.) are unlikely to be successful in this class.

Attendance: Active and attentive participation in class are key to success in this course. Instructors will be considerate of culturally appropriate ways of showing active participation. Students are expected to actively listen, ask pertinent, respectful questions, and participate in all course activities. Attendance is part of the participation grade; if you must miss a class, please be proactive and ask your instructor for instructions on how to catch up.

Exams and quizzes missed because of an excused absence, must be taken within one week after a student’s return to school. Because of logistical difficulties, some sessions and assignments may be difficult to make up, so be sure and talk with the instructor when you know that you will have to miss class(es).

Should school or class be officially cancelled (because of inclement weather, technical difficulties etc.), **exams, quizzes, or assignments due during that cancellation will be given or due the next scheduled class session.** Notification of technical difficulties will be made via email, or a phone message (when necessary).

Assignments submitted late without an authorized excuse will be subject to a 10% grade reduction for each class period that the submission is delayed. **Any make up work not completed by the end of the course will receive a grade of zero (0) and this will be factored into your final grade.**

Assignments: Students are expected to have read the material listed in the attached Lecture Schedule prior to class, and to be prepared to participate in class discussions and activities with comments, questions, and observations. Your participation in class is both required and highly valued, and will count as part of the final grade. Active participation is

also encouraged for the discussion post assignments and will count towards the final grade.

Discussion posts: The posts are to be published on Canvas.

Each student will write at least 8 blogs, 1-2 paragraphs long, in response to a class discussion, reading, project presentation, or topic related to ethnobotany. You have to reference your sources of information by adding in-text citations and a reference list at the end of each blog entry. Discussion posts are due on Saturdays (two days before the next class). **Delays in posting will result in a reduced score for each post that is submitted late, 5% for each day.**

Blog Comments: You are expected to post responses to other students' discussion posts (two per assigned discussion post). This dialogue is meant to encourage questioning, critical thinking, learning, and getting to know each other. Please post at least one comment per required discussion post- feel free to respond to more than one if you wish. Comments are due on the day of next class. **Delays in replying to posts will result in a reduced score for each reply that is submitted late, 5% for each day.**

Student presentations: We will discuss the format and topics of the student presentations at the beginning of the course. You are required to give a concise overview of your topic to your classmates (10 minutes per student and presentation; you are welcome to teamwork!).

Study Skills: This class requires good reading and study skills. If a student feels that he or she is falling behind, he or she should contact the instructor **immediately and we will work with you directly.** Issues of this type seldom resolve unless specific measures are taken in a timely fashion.

Drop/Withdrawal/Incomplete: Ceasing attendance does not activate the drop, withdrawal, or incomplete grade process. The student must submit the appropriate forms for each of these processes by the published deadlines to end enrolment in this class. Failure to complete and submit the appropriate forms may result in a failing grade for this course on the student's permanent transcript. Deadlines for drop and withdrawal are listed below under 'Important Dates'. **All paperwork must be completed and submitted by these dates.** Be aware that the college has specific policies and procedures for the assignment of incomplete grades.

Syllabus Addendum (Revised 8/22/2022)

COVID-19 statement: Students should keep up-to-date on the university's policies, practices, and mandates related to COVID-19 by regularly checking this website: <https://sites.google.com/alaska.edu/coronavirus/uaf?authuser=0> Further, students are expected to adhere to the university's policies, practices, and mandates and are subject to disciplinary actions if they do not comply.

Student protections statement: UAF embraces and grows a culture of respect, diversity, inclusion, and caring. Students at this university are protected against sexual harassment and discrimination (Title IX). Faculty members are designated as responsible employees which means they are required to report sexual misconduct. Graduate teaching assistants do not share the same reporting obligations. For more information on your rights as a student and the resources available to you to resolve problems, please go to the following site: <https://catalog.uaf.edu/academics-regulations/students-rights-responsibilities/>.

Disability services statement: I will work with the Office of Disability Services to provide reasonable accommodation to students with disabilities.

ASUAF advocacy statement: The Associated Students of the University of Alaska Fairbanks, the student government of UAF, offers advocacy services to students who feel they are facing issues with staff, faculty, and/or other students specifically if these issues are hindering the ability of the student to succeed in their academics or go about their lives at the university. Students who wish to utilize these services can contact the Student Advocacy Director by visiting the ASUAF office or emailing asuaf.office@alaska.edu.

Nondiscrimination statement: The University of Alaska is an affirmative action/equal opportunity employer and educational institution. The University of Alaska does not discriminate on the basis of race, religion, color, national origin, citizenship, age, sex, physical or mental disability, status as a protected veteran, marital status, changes in marital status, pregnancy, childbirth or related medical conditions, parenthood, sexual orientation, gender identity, political affiliation or belief, genetic information, or other legally protected status. The University's commitment to nondiscrimination, including against sex discrimination, applies to students, employees, and applicants for admission and employment. Contact information, applicable laws, and complaint procedures are included on UA's statement of nondiscrimination available at www.alaska.edu/nondiscrimination. For more information, contact:

UAF Department of Equity and Compliance
1692 Tok Lane, 3rd floor, Constitution Hall, Fairbanks, AK 99775
907-474-7300
uaf-deo@alaska.edu

We want you to know that:

1. UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: www.alaska.edu/nondiscrimination.
2. Incidents can be reported to your university's Equity and Compliance office (listed below) or online reporting portal. University of Alaska takes immediate, effective, and appropriate action to respond to reported acts of discrimination and harassment.
3. There are supportive measures available to individuals that may have experienced discrimination.
4. University of Alaska's Board of Regents' Policy & University Regulations (UA BoR P&R) 01.02.020 Nondiscrimination and 01.04 Sex and Gender-Based Discrimination Under Title IX, go to: <http://alaska.edu/bor/policy-regulations/>.
5. UA BoR P&R apply at all university owned or operated sites, university sanctioned events, clinical sites and during all academic or research related travel that are university sponsored.

Important Dates

Last day for 100% refund: Friday, Sept. 8, 2023

Last day for student- and faculty-initiated withdrawals: Friday, Nov 3, 2023 (W appears on academic transcript)

Last day for course submissions to be considered for grading: Saturday, December 16, 2023

COURSE OUTLINE: LECTURE TOPICS BY WEEK

Please note that the schedule will have some flexibility to accommodate possible guest speakers and the particular interests of students. Assignments are always due before the beginning of the next course meeting.

<p><u>Week 1</u> Monday October 2, 2023</p>	<p>Introductions and introduction; syllabus, format and content of this class Considerations about ethics in wildcrafting and ethnobiology. Assignments:</p> <ul style="list-style-type: none"> • Personalize your profile on Canvas. • Read: Kimmerer - Restoration and Reciprocity. • Read: A Framework for Ethical Decision Making, Markkula Center for Applied Ethics: https://www.scu.edu/ethics/ethics-resources/a-framework-for-ethical-decision-making/ • Choose a keyword, quote or concept from the two resources listed above and be ready to talk about it in class. • DISCUSSION POST #1 - Find an example of ethical (or non-ethical) wildcrafting in AK or beyond and write a discussion post about it; include your personal ethical harvesting guidelines (all discussion posts are due on Saturdays, replies are due on Mondays at noon; submission dates will be posted on Canvas)
<p><u>Week 2</u> October 9</p>	<p>Ethics in wildcrafting and ethnobiology Discussion Assignments:</p> <ul style="list-style-type: none"> • Read: Hardison, Preston and Kelly Bannister. "Ethics in Ethnobiology: History, International Law and Policy, and Contemporary Issues." <i>Ethnobiology</i>. John Wiley & Sons, Hoboken New Jersey (2011): 27-49. Read interactively and be prepared to share your highlights in class. • Read: Code of Ethics of the International Society of Ethnobiology • Optional reading: Martin 2004, pp. 239-251; • Optional reading: Declaration of Belém (original version and Belém 30+) • DISCUSSION POST #2: Create a discussion post about the ISE Code of Ethics and the Hardison & Bannister reading.
<p><u>Week 3</u> October 16</p>	<p><u>Code of Ethics of the International Society of Ethnobiology</u> Assignment:</p> <ul style="list-style-type: none"> • Read the Universal Declaration on Rights of Mother Earth from Bolivia • DISCUSSION POST #3 - Create a discussion post about RME
<p><u>Week 4</u> October 23</p>	<p><u>Cultural and spiritual aspects of wildcrafting: Rights of Mother Earth</u> Student presentation Assignment:</p> <ul style="list-style-type: none"> • Familiarize yourself with website of United Plant Savers (https://www.unitedplantsavers.org and https://www.unitedplantsavers.org/species-at-risk-assessment-tool) • Read: Castle, Lisa Marie, et al. "Ranking tool created for medicinal plants at risk of being overharvested in the wild." <i>Ethnobiology Letters</i> 5 (2014): 77-88. • Prepare for group assignment in class (materials and instructions on Canvas)
<p><u>Week 5</u> October 30</p>	<p>Biological aspects: <u>United Plant Savers and At-Risk Assessment Tool by United Plant Savers</u> Assignments:</p> <ul style="list-style-type: none"> • Choose a plant that you have harvested in the past to present them to the class, discuss potential ethical wildcrafting concerns and how to address them. Create a summary for your plant (1. slide) and conduct an at-risk assessment for it (2. slide) in a shared google slides

Syllabus Ethical Wildcrafting

Kuskokwim Campus, CRCD
University of Alaska Fairbanks

EBOT 210, Fall 2023
Lisa Strecker

	<p>document; post your summaries and your at-risk assessment on Canvas (due 11/6/2023).</p> <ul style="list-style-type: none"> • Read: State of Alaska, Department of Natural Resources 2008 Alaska Non-Timber Forest Products Harvest Manual. For Commercial Harvest on State-Owned Lands. • Read: Responsible Harvesting Guidelines by the Kayaani Sisters Council (on Canvas)
Week 6 November 6	<p>Biological aspects: Student presentations</p>
Week 7 November 13	<p>Biological aspects: Student presentations</p> <p>Assignment: Resources: Selection film clips related to ANCSA and ANILCA posted on Canvas DISCUSSION POST #4: Find out which harvesting regulations apply in your area and post them on Canvas (due 10/20/2023)</p>
Week 8 November 20	<p>Legal aspects: Land ownership and land management in AK & Alaska Non-Timber Forest Products Harvest Manual</p> <p>Assignment:</p> <ul style="list-style-type: none"> • Read the Convention on Biological Diversity (CBD). • Read: Posey, D. A. (2002). Commodification of the sacred through intellectual property rights. <i>Journal of Ethnopharmacology</i>, 83(1-2), 3-12. • DISCUSSION POST #5: Create a discussion post about the CBD
Week 9 November 27	<p>Legal aspects: <u>Convention on Biological Diversity and Nagoya Protocol: Global issues concerning ethics in wildcrafting: bio-piracy, patenting and sustainability.</u> Transnational regulations for trade with plants and parts of plants harvested from the wild.</p> <p>Assignment:</p> <ul style="list-style-type: none"> • Read: Godduhn et al. 2013 Addressing historic environmental exposures along the Alaska Highway • Read additional informational material related to the case described in the paper by Godduhn et al. <p>Prepare questions to our guest speaker. Post your questions (at least one) on Canvas no later than Monday before next class.</p>
Week 10 December 4	<p>Environmental pollution and a healthy harvest; Guest speaker</p> <p>Assignments:</p> <ul style="list-style-type: none"> • Prepare for your final discussion post; Go to the App Making an Ethical Decision by the Markkula Center for Applied Ethics (https://www.scu.edu/ethics-app/) and apply it to a case assigned to you. <p>DISCUSSION POST #6 - Write comprehensively about the topic and the outcome of your final assignment (application of the Ethical Decision Making App); include your personal conclusion of the case; share sources that you found useful when conducting research on ethics in the context of harvesting.</p>

Last day for course submissions to be considered for grading: Saturday, December 16, 2023
